

SAVE THE WILD SALMON

To all who care about wild salmon, here is a copy of a letter to send to elected officials:

On Wednesday May 5, Minister Fin Donnelly introduced a private member's bill, Bill 502, that would move the pacific salmon farming industry out of coastal waters and into closed containment. I support this bill, and urge you to pass it.

Wild salmon are being destroyed by sea lice from fish farming. The legislators of Canada must protect the wild salmon by banning net fish farming.

I urge you to read the book 'Sea Sick' by Alanna Mitchell. This details the many threats to the world ocean, and mentions the legislation enacted in Australia before allowing fish farming. Don't let the West Coast salmon be lost as the Eastern cod were lost!

Thank you,
